—The M. E. S. S. have elected Mrs. E. L. Morse superintendent, Miss E. Davis treasurer, Miss Nellie Curtis organist.

—Competitors for the prize at the Skating Rink will skate singly, and the contest has been postponed to Oct. 19th.

—Silas Francisco, of Newman's Grove, was in the city one day last week. He is quite satisfied that mistakes can be made in a printing office, but will have the JOURNAL visit him another year.

—John Bloomquist, of Looking Glass, was in the city last week. His son, of the same name, is attending college at Rock Island, Ill., and he wishes him to read the JOURNAL, and had it forwarded to him.

—Geo. Truman thinks that if Columbus will leave the township organization alone until we have a fair chance to try its merits under an amended statute, he will be in favor of the county seat remaining where it is.

—Those who think Columbus has not improved much are advised to review their opinion. One of our dealers in lumber informs us that the amount of building going on is surprising to those who have not considered it.

—D. L. Bruen has just finished a new dwelling house and says that he is now ready to take the stump in this county for the best men put forward for office, irrespective of party; and that for president he is in favor of Ben Butler.

—The ordinary human being, reading the account of the death of Miss Quackenbush in the last Democrat, would be irresistibly led to the conclusion that the unfortunate girl had come to her death by apoplexy, instead of violence and outrage.

—G. W. Stevens tells us that there is no regularly laid-out road between the corner of his land west of his dwelling and the city. He thinks it would be a good thing to establish a road as indicated and work it, as there is considerable travel along the route.

—We heard of two supervisors of the county who at the last meeting of the Board were ready to offer a reward for the apprehension and conviction of all the men engaged in the brutal outrage of Miss Quackenbush. Can any one explain how it happened that action was not taken, and the resolution not even offered?

—Some one tells us on the Neville and Green at Schuyler; that, sitting in the office of the hotel, Green was quietly saying to Neville that he thought it would be better for them to go into the country school districts; that in these towns the republicans took the daily papers, and were a little too much for them.

—John W. Wichey, living near Duncan, this county, left at the Journal office last week, a sample of corn planted May 20th, called the "Golden Beauty." It looks like a superior quality of corn, and farmers should examine it, with a view to cultivate it, as they would hardly believe what we would say of its size and quality.

—See our proposition for the JOURNAL and the Weekly Chicago Tribune, until the issue after the presidential election, for 75 cents. Present subscribers to our paper can obtain the Tribune FREE by paying a year in advance for the JOURNAL. We heartily wish all our subscribers would avail themselves of this liberal offer. 1f

—Moran Bros. of Creston will have a sale at their place, one mile east of Creston post-office, Wednesday, Oct. 8, 10 a. m., of 11 milk cows, 4 two-year-old heifers, 4 yearling steers, 4 calves, 1 thoroughbred shorthorn bull, 3 work mares, 1 yearling colt, and 35 hogs. \$10 and under, cash; above that sum, twelve months credit on good bankable paper, ten per cent. interest, ten per cent. off for cash. 21-3

—A dispatch from Omaha to the St. Louis Globe-Democrat, concerning Miss Quackenbush's death says that "the testimony of the doctors before the coroner's jury showed that the poor girl had been most horribly tortured by the fiends," and that "the men are now under arrest and strongly guarded to prevent lynching." Our readers here need not be told that no arrests have been made or attempted; at this writing (Monday, Sept. 29, 12 m.) no warrant for arrest has been issued, notwithstanding that the (supposed) verdict of the coroner's jury is that a fearful crime was committed by certain persons therein named.

—A recent number of the Lincoln Journal has this mention of a Columbus enterprise: "About the first of August last Prof. Geo. B. Hurdell, formerly of Sheldon, Iowa, commenced building a skating rink. This really a grand enterprise, and last evening. About 7:30 o'clock the band appeared in front of the rink and after playing several fine selections were conducted by the Professor to the orchestra, where they furnished some very beautiful music for an hour. There were about 800 of the citizens present and 200 or 300 from other towns at the opening. The rink is 40x100 feet, with a twenty-two foot ceiling. The floor which is probably the best in the state, is double, having a surface of hard maple made of two inch lumber. The floor after having been laid, was placed perfectly smooth, and is indeed a model of perfection. The building is lighted by four double gasoline chandeliers, having also twenty-one double windows. The cost of the rink was about \$4,000. The proprietor has 200 pairs of skates varying from one to eight wheels. This is certainly a grand enterprise to the city and should be encouraged by our citizens as it will have a strong tendency to draw the young people away from the saloons where we fear they are too apt to spend their evenings. Prof. Hurdell has spared neither pains nor money to make the rink complete, and his energy will undoubtedly receive the reward it so much merits.

This really a grand enterprise, and last evening. About 7:30 o'clock the band appeared in front of the rink and after playing several fine selections were conducted by the Professor to the orchestra, where they furnished some very beautiful music for an hour. There were about 800 of the citizens present and 200 or 300 from other towns at the opening. The rink is 40x100 feet, with a twenty-two foot ceiling. The floor which is probably the best in the state, is double, having a surface of hard maple made of two inch lumber. The floor after having been laid, was placed perfectly smooth, and is indeed a model of perfection. The building is lighted by four double gasoline chandeliers, having also twenty-one double windows. The cost of the rink was about \$4,000. The proprietor has 200 pairs of skates varying from one to eight wheels. This is certainly a grand enterprise to the city and should be encouraged by our citizens as it will have a strong tendency to draw the young people away from the saloons where we fear they are too apt to spend their evenings. Prof. Hurdell has spared neither pains nor money to make the rink complete, and his energy will undoubtedly receive the reward it so much merits.

The Quackenbush Case.

The JOURNAL gave last week the substance of what it could gather in regard to this case. The examination before the coroner was, it seems, sometimes public, but mostly secret. We could readily see why this might be advisable, and so had nothing specially to say against it. We have been informed (not by the coroner, who refused to tell us what the verdict was) that the verdict of the jury was that the unfortunate girl came to her death, by violence, at the hands of ——— and others. On Monday morning, Sept. 29, we sought an interview with Coroner Heintz and inquired as to the present status of the case, when he told us that a warrant was ready, but there was no money. It seems to be his understanding of the law that he must have money in some shape, from some direction, to pay an official for his work. We have had numerous inquiries as to why no arrests had been attempted, and this seems to be the explanation in a nut shell.

The law says: "If the person charged be present, the coroner may order his arrest by an officer or any other person present, and shall then make a warrant requiring the officer or other person to take him before a justice of the peace for examination, or if the person charged be not present, and the coroner believes he can be taken, he may issue a warrant to the sheriff or constable, requiring him to arrest the person and take him before a justice of the peace for examination."

The warrant of the coroner shall recite substantially the verdict of the jury of inquest, and such warrant shall be a sufficient foundation for the proceedings of the justice "instead of a complaint."

It does seem to us that Coroner Heintz, in making out a warrant and locking it up in his safe, and waiting for some officer to come around and proffer his services in its execution, has a strange conception of his duty. He says he is ready to give it to any man who will undertake the work, and we give him credit for an expressed desire to do his whole duty in the matter, whatever it may be.

We place the facts, as near as we can get them, before our readers, who can draw conclusions just as well as we can.

A Most Excellent Beginning.

The republicans of the city have been considering whether they should organize at once for the campaign or wait until after the candidates for the legislature should be nominated.

Concluding to enter at once upon the work before them, and make the campaign in old Platte lively and interesting, they met last Friday evening at the City Hall and proceeded at once to organize.

Hon. Leander Gerrard was called to the chair. Messrs. McFarland, Condon and Monier were appointed a committee on organization and reported immediately.

After signatures to the articles of organization, the following gentlemen were elected as officers: President, John Wiggins; Secretary, W. T. Walker; Chief Marshal, Dan Condon; Vice President, Ed. Ward, Emil Pohl; 2d Ward, C. J. Garlow; 3d Ward, Henry Woods; Columbus Twp., John Tannabill; Treasurer, Henry Hockenberger.

The Executive Committee of the Club is to consist of the officers thus selected. Wednesday evening was fixed as the time for holding the regular meetings of the Club.

Uniforms and torches are to be provided for the Club, and A. D. Walker, Wm. Cornelius and Geo. G. Bowman were selected as a glee club. One hundred and twenty signatures have already been appended to the constitution of the club, a very considerable number of them being former democrats, and young men brought up under democratic persuasions and now casting their first vote on national issues.

NEW GOODS.

Black and colored dress silks, a full line, prices very low. Novelties, novelties, beaded dress fronts, beaded laces, beaded fringe, velvet ribbons, all colors, ornaments for dress and cloak, all new.

Don't fail to see our cloaks before purchasing, as we have the finest and largest stock to select from west of Omaha.

A nice plush cloak well made and lined at \$3.50, last year's price \$7.00. Carpets, carpets, a new stock just received. 25 pieces of lace curtains just received, prices very low.

Bargains, bargains, great reduction in fall goods. Read these prices. Canton flannel 5 cts. per yard, calico 3 cts. per yd., heavy yard wide bleached muslin 5 cts. per yd., 1 1/2 yard wide waterproof all colors at 50 cts. per yd., broadcast dress goods at 5 cts. per yd., a full yard wide cashmere at 25 cts. per yd., gingham at 6 cts. per yd.
